1. Release notes 25.4.0.1 (v4.10.2.0100)

March 2026

OpenText Identity Manager 25.4.0.1 (v4.10.2.0100) includes a fix for a previously reported issue. This document outlines the steps to install this patch.

For the list of software fixes and enhancements from the previous release, see the release notes for the required version on the [Home](#) page.

To download this product, see the [Software License and Download](#) portal.

1.1. What's new?

This release includes a software fix for a previously reported issue related to the .NET Remote Loader. For more information, see [Resolved issues in 25.4.0.1 \(v4.10.2.0100\)](#).

1.2. System requirements

To apply this patch, you must have the following minimum versions:

- OpenText eDirectory 25.4 (v9.3.2)
- OpenText Identity Manager 25.4 (v4.10.2)
- OpenText Identity Console 25.4

1.3. Resolved issues in 25.4.0.1 (v4.10.2.0100)

Version 25.4.0.1 (v4.10.2.0100) fixes an issue that caused SSL-based connections to the .NET Remote Loader to fail after upgrading to OpenText Identity Manager 25.4 (v4.10.2) [**OCTCR56A756028**].

1.4. Updating the .NET Remote Loader to this patch

You must be on OpenText Identity Manager version 25.4 (v4.10.2) at a minimum to apply this patch.

Prerequisites

Before updating the .NET Remote Loader, perform the following steps:

- Stop the .NET Remote Loader instance.
- Stop all driver instances running with the .NET Remote Loader.
- Close the Remote Loader Console.

Procedure

1. Download and extract `Identity_Manager_25.4.0.0100.zip` to a local folder.
2. Go to the .NET Remote Loader installation directory (for example, `C:\NetIQ\IDM\RemoteLoader\.Net\`) and back up the following files:
 - `DXMLBase.dll`
 - `DXMLRemote.dll`
3. Go to the `<extracted location>\RemoteLoader.NET` folder.
4. Copy the `DXMLBase.dll` and `DXMLRemote.dll` files to the .NET Remote Loader directory. For example, `C:\NetIQ\IDM\RemoteLoader\.Net`.
5. Start the .NET Remote Loader instance and the driver instances.

1.5. Known issues

We strive to ensure our products provide quality solutions for your enterprise software needs. There are no new issues other than the issues mentioned in the [Release notes 25.4 \(v4.10.2\)](#). If you need further assistance with any issue, please contact [Technical support](#).
