1. eDirAPI release notes

eDirAPI 25.4 resolves several previous issues. Many of these improvements were made in direct response to suggestions from our customers. We thank you for your time and valuable input. We hope you continue to help us ensure our products meet all your needs. To download this product, see the [Product Upgrade](#) Website.

1.1. What's changed?

eDirAPI 25.4 introduces the following enhancement in this release:

Refresh of LDAP server configurations

The **Refresh** option introduced in OpenText Identity Console ensures that LDAP server configurations are automatically updated after changes are saved. For more information, see [Modifying LDAP objects - Identity Console](#).

1.2. System requirements

For information about prerequisites, hardware requirements, and supported operating systems, see the [OpenText eDirectory Installation guide](#).

1.3. Install or Upgrade

To upgrade to eDirAPI 25.4, see [Upgrading REST services for eDirectory](#).

1.4. Additional documentation

OpenText Identity Console

For more information, see [OpenText Identity Console](#) home page.
